What is a Mobile Emergency Response Center (MERC)?

Communicate in Times of Crisis with our Mobile Emergency Response Centers (MERC). Mobile command centers provide power and communication solutions for emergency response and business continuity. We provide both new units and renovations for existing command vehicles.

What can a mobile command unit do?

Our Mobile Command Units can be equipped with any component to fulfill your mission. Including, workstations, awnings, equipment racks, and monitoring equipment. Also, we can update an existing Mobile Command Trailer and upgrade it with new technology and prime it for interoperability.

What is a mobile command center?

Our Mobile Command Centers, also known as Mobile Emergency Response Centers (MERC(TM)), are deployed in countries around the world. Our clients range from the private sector to local, state and federal governments. We are trusted by some of the largest organizations in the world, because of our extensive experience in telecommunications technology.

What if a mobile command center fails?

Our first choice at CCS is always a tow away command center purely for the sake of redundancy. It is really very simple, if a mobile command center is built on the chassis of a vehicle and that vehicle has a mechanical failure, you lose your mobile command center.

We offer our customers a completely self-sufficient mobile work environment that allows them to communicate and function regardless of local conditions. Every mobile command center solution is ...
