The Modular series is a modular and expandable energy storage system up to, for example, 10MWh. The system is very complete with EMS, built-in air conditioning and fire protection.

Modular graphene energy storage unit built on patented electrostatic technology. With no chemical reactions or thermal risk, it delivers safe, long-duration energy for critical infrastructure, renewable ...

Battery storage systems are emerging as one of the potential solutions to increase power system flexibility in the presence of variable energy resources, such as solar and wind, due to their unique ...

Our offering extends beyond the battery storage system itself. We provide full, turnkey high-voltage grid integration, leveraging our world-class portfolio of substations, transformers, and Blue HV products ...

Utility-scale energy storage at the grid level improves stability and flexibility. Our solutions support dynamic grid management, enable seamless renewable integration, and unlock additional value ...

Our containerized 10 MWh battery systems allow capacity expansion in 2.5 MWh increments without infrastructure overhauls. A recent installation at a Chilean copper mine demonstrates this flexibility:

Versatile energy storage for commercial and industrial applications. The demand for power, and variation in the demand, continues to increase due to end-user loads and electrification, including the ...

With a volumetric energy density of 146Wh/L, its modular architecture enables scalability for GWh-level utility-scale energy storage projects. The system adopts a back-to-back, high-density...

The 10 MWh energystorage system is built with high-performance LFP 314Ah cells, housed in two20-foot pre-installed battery containers with an advanced liquid cooling systemto enhance efficiency and ...

10MWh Energy Storage Cabinet for Substations

If you are exploring battery energy storage solutions for your project or facility, contact our team today to learn how our advanced 10 MW systems can help you achieve greater efficiency, reliability, and ...
