Picture what it could do to the Sri Lankan economy if, rather than being dependent on imports of polluting and expensive fuel which can exacerbate the climate crisis, we transform our ...

The Cabinet has approved plans to begin developing floating solar power projects as part of the country's renewable energy expansion.

By partnering with global tier-one manufacturers, as well as selected local suppliers, we are able to offer high-quality and durable solar power solutions in Sri Lanka at the most affordable prices.

With energy storage becoming the island's new buzzword, the Sri Lanka Sunrise initiative is turning heads globally. This article cracks open the coconut (pun intended) on how battery tech ...

We understand the new CEB proposal to the cabinet is to scrap this scheme altogether.

By partnering with global tier-one manufacturers, as well as selected local suppliers, we are able to offer high-quality and durable solar power solutions in Sri Lanka at the most affordable prices.

As Sri Lanka accelerates its transition toward renewable energy, innovative solutions like new energy storage cabinets are becoming critical for stabilizing power grids and maximizing solar/wind energy ...

Sri Lanka, being located within the equatorial belt, has substantial potential in solar resource. Solar resource maps of the country indicate the existence of higher solar resource potentials in the ...

The Cabinet of Ministers approved the procurement of 152 megawatts (MW) of electricity generated using ground-mounted solar panel systems, Cabinet Spokesman Dr. Nalinda Jayatissa ...

Solar PV installations can be combined to provide electricity on a commercial scale or arranged in smaller

15mwh sri lankan solar cabinet-based system for island use

configurations for mini-grids or personal use. Using solar PV to power mini-grids is an ...
