ELM MicroGrid offers a full product lineup of Battery Energy Storage Systems ranging from 20kW - 1MW with parallel capabilities.

The ELECOD Outdoor Cabinet Energy Storage System (Air-Cooled) is a highly efficient and scalable energy storage solution, designed for use in microgrid scenarios such as commercial, industrial, and ...

Easy installation and easy operation, manage your energy distribution between renewables, AC grid, and battery. Our Aimbridge Energy DC Microgrid packages provide power system capacities ranging ...

Maximize your enterprise's energy efficiency and cut electricity costs with our CO20K-64E (20KW, 64KWH) commercial energy storage systems, featuring high-efficiency batteries and intelligent ...

We specialize in scalable, 208 VAC storage systems ranging from 20 kWh to over 200 kWh, offering reliable backup power, and a foundation for robust microgrid capabilities.

Energy storage enables microgrids to respond to variability or loss of generation sources. A variety of considerations need to be factored into selecting and integrating the right energy storage system into ...

The ELM MicroGrid offers a full product lineup of BESS (Battery Energy Storage Systems) ranging from 20kW - 1MW with Capabilities to parallel up to 20MW or more in size.

In 2024, Texas rancher John installed two HighJoule 20-foot microgrid energy storage containers with a total capacity of 430kWh. After experiencing multiple grid outages, the system ...

Designed for local edge environments, the Smart-UPS Modular Ultra rackmount and tower solutions provide consistent and reliable connectivity at the most critical moments.

20kW Modular Energy Storage Unit for Microgrids

The lightest and most portable of our Energy Storage Systems, the ZBP 2000, which is built to small events, small construction sites, and is especially useful for powering small electric tools.
