We are excited to announce that our customer's 20MW/40MWh utility-scale battery energy storage system (BESS) project, located in southern California, has successfully reached its ...

Fullmark Energy, a leading independent power producer (IPP) focused exclusively on energy storage, today announced the commercial operations date (COD) of its 20MW/40MWh ...

The \$16 million project, funded by the Global Energy Alliance for People and Planet (Geapp), started in November 2024 and expected to be commissioned in February 2026. The project ...

The Columbia Energy Storage Project will feature Energy Dome's standard-frame 20MW/200MWh CO2 Battery, powering around 18,000 homes in Wisconsin for 10 hours on a single charge.

The BESS Project, funded by the Global Energy Alliance for People and Planet (Geapp), aims to enhance electricity reliability and access by adding 20MW to the national electricity grid.

The Public Service Commission of Wisconsin (PSC) has granted final approval for Alliant Energy's Columbia Energy Storage Project, marking a significant milestone in the deployment of long ...

On July 20th, the innovative demonstration project of the combined compressed air and lithium-ion battery shared energy storage power station commenced in Maying Town, Tongwei ...

Independent power producer (IPP) Fullmark Energy has announced the commercial operation of its 20MW/40MWh Ortega energy storage project in Lake Elsinore, California, US.

Set to be operational in the first quarter of 2026, the project highlights how battery storage can maximise wind energy efficiency while ensuring grid stability.

Tesla's energy storage plant in Shanghai's Lin-gang Special Area commenced operation on Feb 11, as the

20mw energy storage project

assembly line started the production of the first Megapack unit.
