-----

XTAR's 6000mAh battery is currently the highest capacity 21700 on the market. In testing at a 500mA discharge rate (equivalent to 0.083C, calculated as  $500\text{mA} \div 6000\text{mAh}$ ), this cell has ...

Tools used in construction and DIY scenarios, such as impact drills and blowers, have high requirements for the continuous high-load operation capability of the battery, and this high ...

The BFHB is a top-tier 21700 battery with a massive 5000mAh capacity and a 9.8A continuous discharge, making it ideal for high-drain devices like flashlights and power banks. Its ...

The best I've used is JESSPOW 4 Pack 21700 5000mAh Rechargeable Li-ion Batteries. It delivers solid 5000mAh capacity with stable discharge, handling heavy use effortlessly. This battery ...

High-drain 21700 battery has a high current of more than 30 amps without any bad effect on battery working life, and low-drain 21700 battery is not discharged with more than 5 amps current.

The SAMSUNG INR21700-50E is a high capacity 5000mAh cell, with a maximum continuous discharge rate of 9.8A to 60 Deg. C. The cell is ideal for applications such as E-Bikes, scooters and other ...

Performance: 21700 batteries generally have a higher discharge rate, making them ideal for high-power devices. Application: Devices like the Convoy M21H 21700 flashlight and Geekvape ...

Discover the power of 21700 batteries -- high-capacity lithium-ion cells built for electric vehicles, power tools, and energy storage. Learn specs, types, and key benefits.

A key advantage of 21700 batteries lies in their superior capacity and discharge rates. Compared to 18650 cells, 21700s offer a substantial increase in volumetric energy density, often ...

## **21700 the battery with the highest discharge rate**

With discharge rates often exceeding 10A (and up to 35A for high-performance variants), 21700 cells are suitable for demanding applications such as drones, high-performance flashlights, ...
