What is an outdoor telecommunication enclosure?

Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to substations. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices.

What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.

Does rackmount solutions offer outdoor enclosures?

Rackmount Solutions also carries outdoor enclosures for your telecom and industry needs. From 16" to 90" heights, from 25" to 42" of depth, we can help size the right enclosure for your site. Our selection include NEMA 4 and 4x rated cabinets along with air conditioning or heating based on your environment.

What are the features of our enclosures?

Versatile installation features: Our enclosures have two universal wall and pole mounting brackets and an adjustable and removable back plate. This construction allows for smooth installation on various surfaces and integration of equipment inside or outside without drilling additional holes.

Let Rackmount Solutions help you find the right outdoor enclosure for your site. Not only can we get your cabinet, but we can size and mount your power systems to deploy on delivery!
