From outdoor energy storage system cabinets to integrated cloud-based controls, EPC Energy has you covered. We want to help you create a sustainable future.

Product Features: Standardized structure design, menu-type function configuration, photovoltaic charging module, a parallel off-grid switching module, power frequency transformer, and other ...

The Outdoor Photovoltaic Energy Cabinet is an all-in-one energy storage system with high strength, which can work under harsh environmental conditions to supply high-performance energy backup ...

Built-in fire, flood, and temperature control with system warnings for safety. Dual fire suppression, ATS/STS ensure seamless power switching. Integrated BMS/PCS/EMS supports diverse applications.

The 350kWh All-in-one C& I Energy Storage Cabinet features a highly integrated design with built-in BMS, EMS, and PCS. Supporting off-grid and grid use, it cuts energy costs, boosts efficiency, and ...

Safety designs such as water and electricity separation, three-level fire protection + explosion venting + exhaust, liquid cooling + dehumidification design, all ensure the safety of the energy storage ...

As a professional manufacturer in China, produces both energy storage cabinets and battery cell in-house, ensuring full quality control across the entire production process.

The design of Sandpoint outdoor integrated cabinet energy storage system has independent self-power supply system, temperature control system, fire detection system, fire protection system, emergency ...

Wenergy provides fully integrated, outdoor-rated ESS cabinets using LiFePO4 technology with modular design and robust safety architecture. Our solutions are engineered for long-term operation, scalable ...

350kw photovoltaic integrated energy storage cabinet for sports venues

LZY Energy delivers customized, grid-tied solar power systems specifically designed for commercial buildings. We go beyond just solar panels, offering integrated energy storage solutions for reliable ...
