What is a Purcell system outside plant enclosure?

Purcell Systems outside plant enclosures accommodate WiMAX wireless radios in durable equipment enclosures with options for surge protection, battery backup, power management, and complete climate control, for equipment deployments in indoor and outdoor environments.

Can telecommunication equipment survive in an outdoor enclosure?

To survive in an outdoor enclosure, your telecommunication equipment needs to have climate control. So whether you are keeping the electronic system and its components cool in the summer or warm in the winter, outfitting your electrical box with the proper heating and cooling features will protect your investment.

Does e-Abel offer a custom outdoor telecom enclosure?

E-Abel offers custom outdoor telecom enclosures with NEMA standard, protecting cables and components from rain, shock hazard and heat.

Why do telecommunications companies need a custom enclosure?

Telecommunications companies rely on custom and standard NEMA-rated electrical boxes to protect their sensitive equipment. Custom enclosures are often needed because installers constantly struggle to adapt off-the-shelf products to unusual requirements. Why Choose Bison ProFab?

EOSA050-HEA Series combines high efficiency rectifiers, intelligent controller and adaptable PDUs and Li-ion battery, performing in high level in a robust enclosure.
