-----

A broad range of 7 Coolant Distribution Units, including 4U rack-based CDUs and standalone In-Row CDUs with capacities reaching from 100kW up to 5MW. Over 2 times higher heat transfer ...

Join Level1Techs for this tour of a Supermicro 5MW custom loop data center and cooling tower. Inside, they look at how Supermicro integrates rack-scale liquid cooling solutions to support high-density ...

The Vertiv(TM) DCE Rack System is designed to meet the flexibility, ease of installation, and delivery requirements of modern data centers, and is available in pre-configured or customized builds.

New unique facility sized CDU designed to cool a group of high-density server racks. Cost-effective but enterprise-class CDU, delivers over 5MW heat transfer capacity at 8°C approach temperature.

With high-pump head capabilities (loop reach exceeding 50 m), FDUs allow flexible placement of high-density racks based on power availability, structural constraints, or cabling, rather than proximity to ...

Supermicro provides total liquid-cooling solutions including hardware and management software. Supermicro delivers fully tested and validated solutions including servers, racks, networking, and ...

Our server racks are compatible with all leading OEM servers and equipment, such as Dell, HP and IBM. Open frame racks allow for more airflow and space while enclosed racks enhance security.

A perfect solution that provides responsive, high-capacity cooling for HPC or GPU server nodes, and it only requires ASHRAE W3/W4 warm water to solve all cooling challenges of power-dense racks. ...

EDP supplies a range of racks for use in Data Centre and Logistic environments including a range of server racks and charging cabinets for mobile devices
