Explore the eSpire Mini: a turnkey energy storage solution for microgrid, backup, and off-grid applications in residential or C& I projects.

The E90 Series is a fully integrated, 3-phase 480V battery energy storage system with EMS & internal ATS. Optional equipment: microgrid controller & hybrid PV capabilities.

Integrates foldable photovoltaic modules, storage inverters, batteries, and diesel generators into a standardized container. Designed for temporary, remote, and emergency scenarios.

High-efficiency energy storage, smart energy. Explore the innovation Product Center and open up a new future for green energy. Categories: Bidirectional AC/DC power supply, PCS Energy Storage ...

Saft provides advanced microgrid power systems solutions to enhance the use of clean energy whilst providing greater resilience to industries, businesses and communities.

Efficiently store energy with SmartESS 60 kW/200 kWh system, ideal for commercial setups. Available at EnSmart Power.

MGSB™ is a new range of secure integrated hybrid microgrid solution. With diesel generator, battery storage and solar inverter in one secure unit. MGSB™ is mainly developed for lower emission, ...

The Tactical Energy Storage Unit acts as an additional power node on the microgrid offering all the benefits of a hybrid system - leading to improved system performance, reliability and robustness.

Leveraging the benefits of high-density lithium-ion batteries, these units are compact and light compared to traditional alternatives, yet capable of providing days of autonomy of power with a single charge.

A compact small-node Battery Energy Storage system (BESS), ideal for events, construction, and contractors -

60kW Power Storage Unit for Microgrids

Our 60 kVA battery solutions help you reduce emissions and noise while allowing you ...
