The ASEAN Energy in 2025 report by the ASEAN Centre for Energy (ACE) provides a deep analysis of the region's evolving energy mix, emerging policies, and the key trends shaping its future.

By implementing policies based on the Power Development Plan, the share of RE in installed capacity in 2025 will increase by 39.2% from the 2022 level, which is still dominated by hydropower (19.6%) and ...

It envisions a network of cross-border power interconnections that enable electricity sharing between ASEAN countries, leveraging diverse energy sources, including renewables, to ...

between Thailand and Cambodia, an issue that flared again in June 2025. ASEAN's principles have been tested as it seeks to address the crisis that has followed the Burmese military's 2021 coup

Explore the Power Policy Tracker, a new online tool by CASE for Southeast Asia that compares energy transition policies across ASEAN countries, focusing on renewable energy, grid ...

The recent Joint Ministerial Statement on ASEAN Power Connectivity (2025) reaffirmed the commitment to complete at least six new interconnections by 2030. Indonesia, for its part, has ...

The current period of geopolitical transformation presents opportunities and risks for countries worldwide, but perhaps none more so than ASEAN.

OverviewHistoryImplementationCurrent systemFuture expansionsTrans-ASEAN Gas Pipeline NetworkThe ASEAN Power Grid (APG) is a key initiative under the ASEAN Vision 2020 and has the goal of achieving regional interconnection for energy security, accessibility, affordability and sustainability. The APG is a regional power interconnection initiative aiming to connect the electricity infrastructure of the member states of the Association of Southeast Asian Nations (ASEAN). The main goal of the ASEAN Power Grid is to ensure energy security in the ASEAN region by integrati...

ASEAN Ten Countries Power Cabinet DC Model 2025

ASEAN has emerged as a major economic and political bloc. At Davos 2025, ASEAN Secretary General Kao Kim Hourn detailed opportunities and challenges for the region.

By 2030, ASEAN's digital economy is expected to more than double to \$560 billion. But obstacles in the region remain, such as funding for small businesses.
