The liquid-cooled energy storage system integrates the energy storage converter, high-voltage control box, water cooling system, fire safety system, and 8 liquid-cooled battery packs into one unit. [pdf]

Our liquid-cooling energy storage cabinet is engineered for high-efficiency, scalable ESS solutions. It combines top-tier LiFePO₄ cells, advanced liquid cooling, and AI-powered safety features to ensure ...

This outdoor battery cabinet incorporates advanced liquid cooling technology. With its high level of system integration, it offers easy installation and enhanced efficiency.

The "all-in-one" design integrates batteries, BMS, liquid cooling system, heat management system, fire protection system, and modular PCS into a safe, efficient, and flexible energy storage system.

Ranging from 208kWh to 418kWh, each BESS cabinet features liquid cooling for precise temperature control, integrated fire protection, modular BMS architecture, and long-lifespan lithium iron phosphate ...

Designed for commercial and industrial applications, this 261kWh energy storage cabinet integrates cutting-edge 314Ah LiFePO₄ battery cells with a high-performance liquid cooling system to achieve ...

ALOFI ENERGY STORAGE CONTAINER MANUFACTURER ... Ranging from 208kWh to 418kWh, each BESS cabinet features liquid cooling for precise temperature control, integrated fire protection, ...

The ECO-EMS series of products is an integrated energy management system designed for energy storage application scenarios. They enable real-time monitoring, diagnostic warning, panoramic ...

EFFICIENT AND DURABLE Industry leading LFP cell technology up to 10,000 cycles with high thermal stability Liquid cooling capable for better efficiency and extended battery life cycle Higher energy ...

Alofi liquid cooling energy storage cabinet manufacturer

Our system is designed to enhance energy density and thermal performance, accelerate installation times, engineered for optimal serviceability, and minimizing capital expenditures (CAPEX).
