What is a battery cabinet?

A battery cabinet houses and protects the batteries that supply stored energy to a UPS system. It ensures that backup power is readily available whenever primary power is interrupted. Battery cabinets can be installed indoors or outdoors and are designed to provide secure, organized, and scalable energy storage for continuous power delivery.

What size battery cabinet does Arimon offer?

Arimon offers several standard monobloc or top terminal battery cabinet sizes for 10 kVA to 125 kVA UPS systems accommodating monobloc batteries from 100 WPC (64 batteries) to 540 WPC (40 batteries) or can work with you on even larger custom battery cabinet solutions if needed.
