What is Canada's biggest energy storage procurement?

Ontario IESO has made Canada's biggest energy storage procurement to date, selecting nearly 1.8GW of projects through RFP.

Will energy storage meet Ontario's future needs?

See the Results Table. Energy storage will be a key enabler in meeting Ontario's future needs, and the Long-Term RFP, launching this fall, will build on these results, completing Ontario's overall procurement of approximately 2,500 MW of storage that will be online/in-service toward the end of the decade.

Who is energy storage Canada?

Energy Storage Canada is the only national voice for energy storage in Canada today. We focus exclusively on energy storage and speak for the entire industry because we represent the full value chain range of energy storage opportunities in our own markets and internationally.

What types of energy storage are available in Canada?

There are three main types of energy storage currently commercially available in Canada: Storage is playing an increasingly important role in the electricity system by improving grid reliability and power quality, and by complementing variable renewable energy sources (VRES) like wind and solar.

With projects like State Grid Gansu's 291kWh solid-state battery cabinet procurement (¥645,000 budget) [1] and Southern Power Grid's 25MWh liquid-cooled cabinet framework tender ...

Energy storage will be a key enabler in meeting Ontario's future needs, and the Long-Term RFP, launching this fall, will build on these results, completing Ontario's overall procurement of ...

The Ontario Independent Electricity System Operator (IESO) has made Canada's biggest energy storage procurement to date, selecting nearly 1.8GW of projects through a Request ...

The long-awaited LT2 RFP follows on from the Ontario system operator's hugely popular Long-Term 1 (LT1) RFP, which resulted in the single biggest procurement of battery storage capacity ...

Canada Intelligent Energy Storage Cabinet 1000V Tender

The tender was published by CC, NB POWER / ÉNERGIE N-B on 22 Dec 2025 for Battery Energy Storage Systems. The last date to submit your bid for this tender is 30 Apr 2026.

Search all the battery energy storage system (BESS) projects, bids, RFPs, ICBs, tenders, government contracts, and awards in Canada with our comprehensive online database.

BESS is the fastest growing energy storage technology in Canada and is also the dominant storage technology in terms of capacity and number of sites. All but four projects proposed ...

Let's face it - keeping up with energy storage tender lists can feel like chasing a moving target. But in 2025, these lists aren't just bureaucratic paperwork - they're golden tickets to billion ...

Energy Storage Canada is the only national voice for energy storage in Canada today. We focus exclusively on energy storage and speak for the entire industry because we represent the full value ...

Contract awards in Ontario for its expedited energy capacity procurement have been announced, with 739MW of successful battery storage bids.
