How can solar power save you money in Canberra?

As solar energy becomes mainstream in Canberra, homeowners are increasingly asking not just how to capture sunlight but how to store it effectively. Battery storage systems empower you to use solar power after dark, ride through power outages, and maximise savings -- especially as electricity prices continue to climb.

Does Canberra have solar power?

Canberra ranks high for solar potential, averaging over 4.5 hours of peak sun daily. Without storage, most of that energy is exported at low feed-in tariffs--typically 7-12¢/kWh. Battery storage changes the game by allowing you to:

Are solar battery systems a trend for Canberra Homes?

Solar battery systems aren't just a trend--they're a move toward powerhouse autonomy for Canberra homes. Whether you choose Tesla, Sungrow, or one of the other reliable brands, your battery pays for itself faster when combined with a smart solar system and ACT rebates.

How much does a solar system cost in Canberra?

Solar Choice regularly publishes articles with indicative pricing for PV systems in Australia's capital cities (including Canberra) in our Solar Choice Price Index. Based on the price index data from March 2025, we can see that in Canberra a typical 6 kw solar system would cost \$5,420 on average after deducting the STC rebate and including GST.
