Who makes the best solar street lights?

Your reputation is important to us at Solar Lighting International, and we manufacture the highest quality, best solar street lights available. We will collaborate with you to design a solar street lighting system tailored to your requirements and budget.

How many lumens does a solar Streetlight have?

Solar Lighting International offers solar streetlights in multiple brightness options: 6,600 lumens, 7,400 lumens, 13,300 lumens, 14,800 lumens, 16,000 lumens, and 22,200 lumens for standard streetlight fixtures.

Are solar street lights eco-friendly?

Commercial-grade solar street lights have become increasingly popular, notably in the recent decade. They are now commonly considered the most environmentally friendly alternative to utility grid lights. They are the ideal replacement for all applications since they are cost-effective, sustainable, and low-maintenance renewable energy sources.
