The SIMN XHH Series represents the pinnacle of precision environmental control technology, combining advanced temperature regulation with intelligent humidity management in a compact cabinet design.

Constant climate chambers are available in different sizes and with different temperature and humidity ranges. Before purchasing, you need to consider in detail the applications for which you need the unit.

Our climate controlled storage cabinets deliver stable temperature and humidity, so rubber, polymer, and composite materials age slower, inspections pass more often, and field crews stay ready.

This page lists manufacturers of quality Temperature Humidity Cabinet, find out more by clicking electric control cabinet, lab equipment, temperature humidity test chamber with competitive price.

Climatest Symor™; Temperature Humidity Chamber capacity ranges from 50L to 1000L, Temperature Range: 0°C to +100°C. Humidity range: max.20% to 98% RH. We also provide customized chambers ...

Temperature and humidity control system: 7-inch touch screen, the system has the functions of temperature control, humidity control, timing and over-temperature and over-humidity alarm; It is ...

The cabinet and door are insulated and sealed for precise humidity and stability. Used in a variety of biological life science, clinical storage, laboratory testing, and other medical applications.

High performance and reliability come in a compact package, for a wide range of temperature/humidity testing needs. Continuous improvement in the design of constant-temperature (and humidity) ...

These new programmable cabinets with a precise system of temperature and humidity control, which provide various necessary environmental simulative conditions for industrial research and ...
