Sunrun, a prominent player in solar energy solutions, is making significant strides in Puerto Rico by deploying over 37,000 home batteries to support the island's struggling electric grid.

Sunrun is putting tens of thousands of home batteries to work in Puerto Rico as the island's electric grid faces a summer of high temperatures and energy shortfalls.

Despite ongoing grid challenges, Puerto Rico leads the U.S. in per capita adoption of rooftop solar and residential battery storage. Building on this momentum, LUMA proposed a ...

The Department of Energy plans to replace dirty fuel plants in Puerto Rico with solar power and battery storage. In a move toward more sustainable energy, the DOE announced projects ...

How Do Virtual Power Plants Enhance Puerto Rico's Energy Independence? Virtual power plants (VPPs) are emerging as a transformative solution for enhancing Puerto Rico's energy ...

Equipping 100% of homes with 2.7 kW PV and 12.6 kWh battery backup can provide 2700 MW of power to the Puerto Rico grid, which would need to be supplemented by solar ...

The Department of Energy announced Thursday that it would be scrapping solar projects in Puerto Rico intended to install rooftop systems for some 30,000 low-income families as the island deals ...

From left, Raya Power co-founders Nicole Gonzalez, chief technology officer, and Meghan Wood, chief executive officer, who launched the solar startup in Puerto Rico to provide a portable, ...

As more homes became "mini power plants", generating electricity from rooftop solar and storing it in batteries, the island's grid faced a new challenge: modernizing to manage a decentralized,...

China solar power to battery in puerto-rico

Nearly every night for the past two weeks, Puerto Rico's grid operator has called on tens of thousands of batteries scattered across the island to overcome energy shortfalls and help deliver...
