What are acid corrosive safety cabinets?

Identified by their distinctive blue hue, these cabinets clearly indicate the storage of corrosive and potentially harmful liquids. Our acid-corrosive safety cabinets are designed for small containers of acids and corrosive liquids, featuring interior and exterior walls coated with durable materials to protect against chemical corrosion.

What is a safety cabinet for corrosives?

At Denios, our Safety Cabinets for Corrosives embody the pinnacle of safety and reliability in storing hazardous substances. These cabinets shield against potential risks, ensuring a secure environment in laboratories, manufacturing facilities, and various workstations where corrosive materials are handled.

What are DENIOS safety cabinets for corrosives?

Denios Safety Cabinets for Corrosives offer a robust solution for storing hazardous materials, providing essential protection while ensuring easy access for on-site operations. Identified by their distinctive blue hue, these cabinets clearly indicate the storage of corrosive and potentially harmful liquids.

Are your storage cabinets corrosive?

All of our storage cabinets meet OSHA and NFPA Code 30 regulations and have inner protection to avoid leaks and keep employees away from harm. Additionally, all corrosive storage cabinets come with galvanized steel shelves and are finished in blue corrosive-resistant urethane. Need help finding what you are looking for?
