Are locksafe stainless steel cabinets suitable for mining?

Locksafe provides a range of quality stainless steel cabinets manufactured for mining conditions. Our in house design and manufacturing capability allows flexibility in building our isolation cabinets and stations to suit your needs. Below are some of our most popular cabinets.

What housing options are available for mining workers in Australia?

In Australia, mining workers have access to a variety of housing options specifically designed to meet the demanding needs of the mining industry, including modular units and portable homes that ensure comfortable living in remote locations.

How long do mining workers stay in mine housing in Australia?

In Australia, workers in the mining industry typically reside in mine housing for varying periods, depending on the short-stay options that align with project requirements. These durations can range from a few weeks to several months.

Why should you choose a portable mining site building?

Amenities such as accommodation, ablutions and offices can be added at anytime to suit the growth of mining sites as projects expand. When the project concludes, each portable mining site building can be transported to a new location. The durable nature of modular buildings makes them perfect for use on mining sites.

Designed for peak shaving, backup power, and solar self-consumption, it delivers predictable energy costs and uninterrupted operations in any weather.

How much does mine housing cost in Australia? The cost of mine housing in Australia can vary significantly based on factors such as location, type of facility, and duration of stay.
