Coulombic efficiency (CE) has been widely used in battery research as a quantifiable indicator for the reversibility of batteries. While CE helps to predict the lifespan of a lithium-ion...

Chicago Mayor Brandon Johnson on Saturday signed a new executive order aimed at increasing oversight of federal immigration enforcement in the city, saying Chicago will investigate and ...

Coulombic efficiency represents the ratio of charge extracted from the battery during discharge to the charge supplied during charging, measured in ampere-hours (Ah). This metric tells ...

ICE On Notice (Executive Order 2026-01) is an executive order signed by Chicago Mayor Brandon Johnson directing the Chicago Police Department to investigate and document alleged ...

Mayor Johnson signs ICE executive order Chicago has become the first major city in the country to put ICE and Homeland Security on notice that they could be investigated by police. Mayor ...

Here, we propose a feasible operando charge balancing method to compensate for the CE loss induced by HER (or zinc corrosion reaction) on the anodic side by triggering the oxygen ...

These findings demonstrate an effective strategy for improving the performance of the polysulfide/iodide flow battery through OH - management, showing potential for developing more ...

Chicago Mayor Brandon Johnson on Saturday signed an executive order directing Chicago police to investigate and document alleged illegal activity by federal immigration agents and refer ...

Our study provides understanding on the effect of electrolyte composition and pH changes near the electrode surface on the coulombic efficiency of the iron electrode of an all-iron flow battery.

Mayor Brandon Johnson signed an executive order Saturday ordering Chicago police to investigate alleged
