I understand `cross_validate` and how it works, but now I am confused about what `cross_val_score` actually does. Can anyone give me some example?

Archaeological evidence regarding the location of Golgotha, where Jesus was crucified, suggests the Church of the Holy Sepulchre--or clues beneath the Church of the Redeemer--may ...

The history of crucifixion was brought to life when the heel bones of a young man were found in a Jerusalem tomb, pierced by an iron nail.

Explore new archaeological and forensic evidence revealing Roman crucifixion methods, including analysis of a first-century crucified man's remains found in Jerusalem.

The cross entropy formula takes in two distributions, $p(x)$ $p(x)$, the true distribution, and $q(x)$ $q(x)$, the estimated distribution, defined over the discrete variable x x and is given by

Gospel accounts of Jesus's execution do not specify how exactly Jesus was secured to the cross. Yet in Christian tradition, Jesus had his palms and feet pierced with nails. Even though ...

This second-century graffito of a Roman crucifixion from Puteoli, Italy, is one of a few ancient crucifixion images that offer a first-hand glimpse of Roman crucifixion methods and what ...

Throughout the world, images of the cross adorn the walls and steeples of churches. For some Christians, the cross is part of their daily attire worn around their necks. Sometimes the cross ...

When did Christians start to depict images of Jesus on the cross? Larry Hurtado highlights an early Christian staurogram that sets the date back by 150-200 years.
