What is a custom built Battery Cabinet?

AUS-POWER Batteries custom built battery cabinets are the ideal solution for those larger installations or anyone requiring a secure, professional and practical installation. The cabinets contain two lockable doors (front and back) and removable side panels for easy access.

Why should you choose energy storage cabinets?

This ensures that energy storage cabinets can provide a complete solution in emergency situations such as fires. To accommodate different climates, we provide professional recommendations based on customer usage scenarios and requirements.

Why do Australians need a large-capacity energy storage system?

Australia's rapid expansion of renewable energy, coupled with the gradual retirement of coal-fired power plants, has increased the demand for reliable, large-capacity, long-duration energy storage.

What storage solutions are available for battery energy batteries?

Our space efficient storage solutions for batteries are designed to accommodate vertically or horizontally installed Battery Energy batteries. Horizontal rack configurations offer a minimum 600mm x 600mm footprint of and can cater for up to eight fully adjustable shelves.
