Canovate's modular seismic rack cabinets can be customized to meet your data center's needs, making them effective for current and future infrastructure demands.

How much structural stress can modern energy storage cabinets endure during seismic events? As global deployments surge 78% year-over-year (Wood Mackenzie Q2 2023), earthquake resilience ...

We design and manufacture high-quality custom enclosures, while providing professional assembly, system integration, and tailored support services for telecom, solar, and industrial equipment across ...

Featuring corrosion-resistant materials, advanced thermal management, and customizable designs, these NEMA-rated enclosures are perfect for energy storage, telecommunications, and industrial ...

You can protect your telecom cabinet power systems with practical strategies. Anchoring cabinets and increasing connecting bolts offer cost-effective reinforcement.

Our cabinets are built to withstand harsh weather conditions and provide excellent protection for power management systems, telecom base stations, energy storage battery systems, and radio equipment.

Explore our custom seismic solutions tailored for high-risk environments, providing specialized protection for critical equipment. Trust our expertise.

For Optical Distribution Frame installations, DCX Seismic Cabinets are fully configurable, front-access cabinets that serve as a high-density fiber interconnect or the main building block for a large fiber ...

Durable outdoor equipment cabinets for secure storage of electrical, telecom, and industrial gear.

Customized earthquake-resistant telecommunications energy storage cabinets for farms

Weather-resistant, reliable, and space-efficient solutions. Over 20 years of extensive experience in ...

Z4-Series SeismicFrame Cabinet System offers custom seismic protection for Zone 4 areas. High load capacity, OSHPD pre-approved designs. Secure critical infrastructure.
