How does the UAE regulate the export of controlled goods?

The UAE's criteria for the regulation of the export of controlled goods are founded on its obligations under international law and a steadfast commitment to maintaining its credibility and trust within the international community. These criteria for controlled exports include the following:

How are customs duties calculated in the UAE?

Tariffs on UAE Imports Customs duties in the UAE are calculated based on the CIF value (Cost, Insurance, Freight), with the standard rate being 5%. However, certain goods like alcohol and tobacco face higher duties (50% and 100%, respectively). Some products, such as specific food items or raw materials, may be exempt from duties.

How does customs clearance work in UAE?

Customs Clearance Process: The submitted documents undergo scrutiny, and UAE Customs may conduct cargo inspections. Additionally, importers can track shipments using services like Vessel Enquiry and Container Enquiry, which provide real-time updates on vessel arrivals and container discharge statuses.

Importing to Free Trade Zones (FTZs)

What are the requirements for FTZ imports?

Importer Code- Issued by Customs, this is necessary for all FTZ imports. Goods Inspection - Goods must be inspected upon arrival, and the customs seal must remain intact. Additionally, goods must enter the Free Zone within 72 hours of the customs declaration, and they cannot be altered before receiving official clearance from customs.
