Will East Timor's first solar power plant be built in 2026?

During his nine years as a Reuters correspondent, he has attempted to lend a global perspective to small-town issues. East Timor expects the construction of its first large solar power plant to begin in 2026 and become operational months later, the state utility's chair told Reuters, helping it slash expensive diesel imports.

Will East Timor retire its diesel power plants?

East Timor plans to retire its diesel power plants in the "near-to-medium term," Ferreira said, adding that the country hopes to switch to natural gas-fired power plants and consider further renewable investments to further cut power costs.

Why should Timor-Leste invest in solar & storage infrastructure?

José de Ponte added: "The investment in Timor-Leste's solar and storage infrastructure is transformative. It will help reduce dependence on fossil fuels while improving grid stability and energy access across the country". José de Ponte was supported by special counsel Marnie Calli, senior associate Lisa Huynh and solicitor Jeraldine Mow.

What is East Timor doing to boost power?

East Timor has also issued rights to mine gold to joint ventures between Timorese companies and Australian miners, and is exploring onshore natural gas in central and eastern Timor, which could further boost demand for power.

Discover how East Timor's groundbreaking energy storage initiative addresses electricity challenges while creating opportunities for renewable energy integration. Explore technical insights, regional ...

East Timor to build its first 72 MW solar plant with 36 MW storage in 2026, reducing diesel reliance and advancing clean, affordable energy access.

DLA Piper advised Eletricidade de Timor-Leste on a PPA to develop Timor-Leste's first solar PV power plant and battery energy storage system.

East Timor plans to start construction of a 72 MW solar PV plant, together with a 36-MW battery energy

East timor energy storage solar power generation enterprise

storage system in 2026 of its first large solar-power plant.

Japan's Itochu Corp (8001.T) and Electricite de France (EDF) will jointly develop a 72-megawatt solar power plant and a 36-MW battery energy storage system in Manatuto, and supply ...

What is the Timor-Leste solar power project?The Project involves the construction and 25-year operation of a new power plant in Manatuto, Timor-Leste, comprising a 72 MW solar power plant co ...

Explore solar project in East Timor (Timor-Leste), delivering sustainable and reliable energy solutions. Learn about our commitment to renewable energy and how we're helping communities thrive with ...

Japan's Itochu Corporation and Électricité de France (EDF) will jointly develop a 72 MW solar power plant and a 36 MW battery energy storage system in Manatuto. The two companies will ...

The construction of the solar power plant is a key component of East Timor's strategy to diversify its energy sources. The country has been heavily reliant on fossil fuels, but this new ...

Japan's Itochu Corp and Electricite de France (EDF) will jointly develop a 72-megawatt solar power plant and a 36-MW battery energy storage system in Manatuto, and supply power to ...
