Our Solar Retrofit Power Hub is an outdoor off-grid power source that integrate with existing outdoor bus stations and whenever an off-grid power source is needed to provide access to 100% solar energy.

Get up close and personal with this super detailed, impeccably illustrated hi-res PDF of our full off-grid power setup with a schematic representation of how everything in our 3kW, 5kWH, ...

Building a small off-grid solar system can be quite straightforward. All you need is some simple calculations and basic electrical know-how.

Equipment and Tools Needed For A Diy Solar SystemHow to Design A Solar Power SystemInstalling The SystemFinal ThoughtsGoing solar does not mean you must hire a team and spend thousands. If you are installing a simple, small off-grid unit, you can do it yourself with a little math and some basic electrical knowledge. Alternatively, you can also choose a portable solar system, which uses a device that combines the battery, inverter, and other electronics into a sing...See more on earth911
