Who makes custom lithium-ion battery packs?

As a pioneer in future-ready power solutions, CMB is your trusted partner for custom lithium-ion battery packs. CMB's 21700 Li-ion battery packs offer advanced lithium-ion battery technology in compact and high-energy-density packaging. They provide superior power and longevity suitable for various applications.

Can Lithium Werks make a custom battery pack?

Lithium Werks' patented Nanophosphate battery technology (designed by MIT and A123) can be used in your custom modules. We can design and manufacture custom battery packs using lithium iron phosphate (LFP) cells for your power or energy application. Robust cylindrical, prismatic, or pouch cells can be produced for your pack.

Can Lithium Werks provide a battery management system (BMS)?

Lithium Werks can provide modules and packs with BMS (Battery Management Systems) to monitor, control and communicate with your devices or configure the modules to accept off-the-shelf BMS products. Lithium Werks builds custom battery packs and modules using lithium iron phosphate LFP batteries.

Do you assemble rechargeable lithium batteries?

We develop and manufacture customised packs - inclusive: In addition to NiMH and NiCd - We do not assemble cells either - rechargeable lithium battery packs. We take care of the certified and professional disposal of all types of batteries. In most cases, the raw materials can even be completely recycled.

We can change the color of the battery cabinet according to your demands from Germany. Removable doors and side panels makes also the access of the batteries easier for any intervention.

Li-ion battery packs manufactured by Gushine are engineered for a wide range of applications, from handheld terminals and smart hardware to robotics and medical devices. As a full custom solution ...

VARTA Storage has extensive industry experience in designing powerful and safe customized lithium-ion battery packs. Comprehensive service and consultation from the initial specification to the ...

Battery-Kutter is a specialist in the production and distribution of various types of batteries, including

German solar battery cabinet lithium battery pack customization

lead-acid and lithium batteries, and offers customized battery pack development.

Lithium Werks plants have been manufacturing cells and modules for over 20 years. We have the experience and the know-how to build a custom battery module to fit your application.

Discover sustainable energy storage solutions from Gotion in Göttingen. Future-proof battery systems for all applications!

We manufacture customised battery and rechargeable battery packs in a short time - thanks to well-established processes, streamlined workflows and high stock availability. Our packs consist of ...

Lithium-ion battery pack manufacturing process includes separate cell sorting, assembly, and insulation stages to ensure high performance, safety, and longevity for all of our custom rechargeable battery ...

At Lithion, all of our battery packs are of the highest quality and efficiency. To simplify your choices, you can contact us and together we can talk through your unique energy requirements to create custom ...

From the electronics to the sophisticated design, we develop customised Li-ion and nickel metal hydride battery packs for a wide range of markets and requirements. Our development department employs ...
