What are the different types of retail counters?

Cash desk, retail counter, shop counter, and cash register for your shop counter area. Our store checkout counters range from simple glass showcases to a complete set of retail counters, designed to meet the various needs of the retail industry.

What types of retail counters are available at unique kiosk?

At Unique Kiosk, we have a huge range of retail counters available: smaller scale items such as corner units, side, and cash counters*, and larger scale items including wrap counters, glass, and aluminum counters. Our retail counters are available flat packed or assembled for your convenience. With a focus on high quality and low prices, we can assist with your retail counter needs.

Why should a retail store have a single or modular counter?

Single or modular retail store counters can help stores direct traffic, promote merchandise, and establish strong customer relationships--all of which directly affect sales. For a large retail store, you will need a large & long retail counter to allow more staff to work at the same time.

What size is a retail store counter?

Our most popular retail store counter sizes are 36," 48," and 72 inches wide. Customized sizes are available, but the standard size counter price will be lower. Retail store counters can be used individually or in combination to make L-Counters, U-Counters, and other shapes. Here are some of our counter features.
