What is the National Programme on high efficiency solar PV modules?

The national programme on High Efficiency Solar PV Modules aims to build an ecosystem for manufacturing of high efficiency solar PV modules in India, and thus reduce import dependence in the area of Renewable Energy. It will strengthen the Atamnirbhar Bharat initiative and generate employment.

Why should we promote manufacturing of high efficiency solar PV modules in India?

To promote manufacturing of high efficiency solar PV modules in India and thus reduce import dependence in the area of Renewable Energy.

What is the financial outlay for 'high efficiency solar PV modules' (Tranche-I)?

The financial outlay for PLI for 'High Efficiency Solar PV Modules' (Tranche-I) is INR 4,500 crore.

What are the outcomes/benefits of solar PV scheme?

The outcomes/benefits expected from the scheme are as follows: It is estimated that about 65,000 MW per annum manufacturing capacity of fully and partially integrated, solar PV modules would be installed. The scheme will bring direct investment of around Rs.94,000 crore.

The Sustainable and Holistic Integration of Energy Storage and Solar PV (SHINES) program develops and demonstrates integrated photovoltaic (PV) and energy storage solutions that ...

The national programme on High Efficiency Solar PV Modules aims to build an ecosystem for manufacturing of high efficiency solar PV modules in India, and thus reduce import dependence in ...

The national programme on High Efficiency Solar PV Modules aims to build an ecosystem for manufacturing of high efficiency solar PV modules in India, and thus reduce import ...

Manufacturers will be rewarded for higher efficiencies of solar PV modules and also for sourcing their material from the domestic market. Thus, the PLI amount will increase with increased ...

# High-efficiency budget scheme for photovoltaic integrated energy storage cabinet

The National Programme on High Efficiency Solar PV Modules will reduce import dependence in a strategic sector like electricity. It will also support the Atmanirbhar Bharat initiative.

"The Union Budget 2026 marks a pivotal moment for India's renewable energy landscape, particularly the solar sector. By reducing duties on solar panels and related components, the ...

The scheme aims to build an ecosystem for manufacturing of high efficiency solar PV modules in India and thus reduce import dependence in the area of Renewable Energy.

On 11 November, 2020, the Cabinet approved introduction of Production Linked Incentive (PLI) Scheme for 10 key Sectors, for enhancing India's manufacturing capabilities and exports under Atmanirbhar ...

Cabinet approves Production Linked Incentive Scheme on "National programme on High Efficiency Solar PV Modules" for achieving manufacturing capacity of Giga Watt (GW) scale in High Efficiency Solar ...

The Government has launched Production Linked Incentive (PLI) Scheme for High Efficiency Solar PV Modules, for achieving manufacturing capacity of Giga Watt (GW) scale in High ...
