-----  
What is Highland solar?

Highland Solar is a 300-megawatt (AC) solar energy project, approved by the Ohio Power Siting Board, and located in Highland County, Ohio. The solar project is expected to produce affordable renewable energy. The project is expected to produce major environmental benefits with minimal impacts:

What is Highland BC solar project?

Highland BC Solar Project Limited Partnership (the Proponent) proposes to develop the Highland Solar and Energy Storage (Highland Solar) Project which would be approximately 395 hectares in size and located approximately 35 kilometres (km) west of Logan Lake and 15 km south of Ashcroft within the boundaries of the Thompson-Nicola Regional District.

Where can I find information on the Highland solar project?

For more information on the Highland Solar Project, visit the Environmental Assessment Office (EAO)'s project page. The Highland Solar Project is being reviewed by the EAO under the Environmental Assessment Act (the Act), 2018.

What are the benefits of Highland solar?

WHY: Solar energy is an abundant, sustainable source of zero-carbon electricity generation. Community Benefits: Once in operation, Highland Solar will be a significant new taxpayer in Highland County. Other community benefits include:

Joel Puritz, manager of project development at DESRI, said the project, which is located about 15 miles southwest of Hillsboro just outside of Buford, will be adding a battery storage area as...

Imagine a remote village nestled in the Himalayas or a mining site in the Andes - places where traditional power grids can't reach. That's where highland energy storage devices shine. These ...

Highland BC Solar Project Limited Partnership, a subsidiary of Recurrent Energy, is developing the Highland Solar and Energy Storage Project (Project), an approximately 150 MW solar and up to 600 ...

Other names: Highland Solar and Energy Storage Project. Highland Solar Project is a solar photovoltaic (PV) farm in pre-construction in Canada. Read more about Solar capacity ratings. The map below ...

# Highland solar energy storage

Highland County commissioners Brad Roades, Terry Britton and David Daniels were updated on plans to expand an existing solar project, with additional acreage for a larger solar ...

This 300-megawatt solar-powered electric generation facility will occupy up to 1,919 acres within a 3,400 acre project area about 3.2 miles northwest of Mowrystown, Ohio.

After receiving the Initial Project Description and Engagement Plan for the Highland Solar Project, the EAO issued an order under Section 13(3)(a) of the Act on May 25, 2023, formally starting the Early ...

Highland Solar PV Park is a 300MW solar PV power project. It is planned in Ohio, the US. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is ...

Highland Solar is a 300-megawatt (AC) solar energy project, approved by the Ohio Power Siting Board, and located in Highland County, Ohio. The solar project is expected to produce affordable renewable ...
