Your new TV is all plugged in and ready to go when you realize the remote doesn't have batteries installed. For AA, AAA, C, and D batteries, slide the flat, negative end of the battery against the spring onto the device. Then, push the raised, positive end into the flat side of the compartment. For a 9-Volt battery, hold it at a 30-degree angle to line it up with the connector snaps. Press it into the connector. For coin or button batteries, place the positive side facing up unless otherwise directed. See more on wikihow
