How many lithium-ion battery cabinets do I Need?

Due to the density of the Vertiv EnergyCore design, only two lithium-ion battery cabinets are needed to support each 500kW Trinegy(TM) UPS core, versus the three cabinets that are required by most suppliers.

Why should you choose a high-density battery cabinet?

OPTIMIZE RUNTIME: Choose high-density battery cabinet for 5-min and 7-min End of Life runtimes, making critical loads resilient and uninterrupted. HIGH PERFORMANCE BATTERIES: Utilize Lithium-Ion modules tested for demanding data center backup and AI compute workloads.

What is a battery cabinet / rack?

EverExceed designs customized battery cabinets / racks for individual batteries. The cabinet or racking system can be specified to accommodate any battery cell. From flooded to sealed, from lead acid to nickel cadmium and from vertical to horizontal all kinds of battery cabinet / rack can be designed flexibly to save the space in battery room.

"With our Vertiv EnergyCore battery cabinets, we are delivering exactly what our customers and our industry need - compact, high-density energy storage capable of operating safely ...

Introducing the Linkbasic 42U 800mm Deep Battery Cabinet, your ultimate solution for secure and efficient battery storage in data centers and IT environments. Designed for maximum performance ...

With advanced BMS intelligence for precise State of Charge (SoC) and State of Health (SoH) tracking, these battery cabinets simplify installation, reduce maintenance, and optimize runtime.

Introducing the Linkbasic 42U 800mm Deep Battery Cabinet, your ...

CAB278X8 All-Rack Floor-standing data cabinets are high quality and cost effective 19" racks. All doors and panels are lockable and removable giving all round access.

Our team of experts can help you configure your cabinet solution based on your unique needs. You can
