---

The latest RESS 4 auction concluded only this month, with awards given to 959.84MW worth of solar projects. Below is a list of some of the largest solar farms in Ireland which are either ...

A partnership between Irish renewable energy group NTR and ...

Ireland's energy storage capacity could increase almost eightfold by 2035, driven by a growing pipeline of battery projects and calls for stronger policy support, according to a new report ...

SSE has acquired the project development rights for a 120MW/240MWh grid-scale battery energy storage system (BESS) project in Ireland's Midlands from UK-based renewable energy ...

At Strategic Power Projects we have embraced the advances in Solar & Battery Storage technology to ensure security of renewable energy supply across the island of Ireland.

The Legal & General (L& G) NTR Clean Power Fund has acquired a ready-to-build solar and battery energy storage system (BESS) portfolio from Strategic Power Projects (SPP). Known as ...

The Republic of Ireland's environment minister officially opened a 75MW/150MWh battery energy storage system (BESS) last week.

These storage systems house power generated from renewable energy developments including wind turbines and solar panels. This energy can later be released onto the grid to help ...

We currently have more than 300MWs of battery storage capacity in operation in Ireland, making it one of the largest battery portfolios in Europe. We plan to develop a pipeline of large scale battery ...

A partnership between Irish renewable energy group NTR and London-based Legal & General (L& G) has acquired a 211-megawatt (MW) hybrid solar and battery storage project in Louth ...
