What is the school photovoltaic programme?

The School Photovoltaic Programme includes monitoring and display screens for each installation. Solar panels can be used as practical educational tools. They provide a tangible way for students to learn about renewable energy and the science behind solar power.

What is the second phase of the schools photovoltaic programme?

This section provides the suite of guidance documents and forms for the second phase of the Schools Photovoltaic Programme. The second phase of the Schools Photovoltaic Programme will open for applications from 11th November 2024. All schools in the second phase will be contacted by the Department and invited to apply from that date.

Where can I apply for the school photovoltaic programme?

Phase 2 of the School Photovoltaic Programme has just commenced. The call for applications is now open to schools located in the following areas: Carlow, Cavan, Cork, Dublin, Kildare, Laois, Longford, Louth, Mayo, Meath, Monaghan, Roscommon, Sligo, Tipperary, Westmeath, and Wexford.

How many schools have been approved for the energy savings programme?

The second and final phase is now open to all eligible facilities nationwide, and a total of 757 schools have been approved for funding so far. Minister McEntee said that "this programme offers schools an opportunity to reduce carbon emissions and energy costs while providing students with real time data on energy consumption".

This programme seeks to install up to 24 megawatts of renewable energy capacity at schools in Ireland, generating savings of approximately EUR5.5 million per year across 4,000 schools, ...

Energy costs and sustainability concerns are driving growth in Solar Power across Ireland's schools. Contact us to arrange an appointment to begin your schools journey.

This initiative is designed to help educational institutions harness renewable energy, reduce their carbon footprint and lower energy costs, all while providing students with valuable ...

## Irish schools use 500kW photovoltaic energy storage cabinets

Thanks to the Solar for Schools programme, up to 4,000 schools nationwide are now eligible to install fully-funded solar panels, reducing their energy bills while taking a major step towards sustainability.

Welcome to the Schools Photovoltaic Programme (SPP), an innovative initiative funded by the Climate Action Fund. At the heart of the SPP is the vision to empower primary and post-primary schools ...

A deep dive into Ireland's ambitious plan to put free solar panels on 4,000 schools. We explore the massive savings, the bureaucratic headaches, and what it means for Ireland's energy ...

Learn how Irish schools benefit from the SEAI Schools Photovoltaic Programme, offering free solar panel installations for energy savings.

Explore SEAI grants for solar panels for schools in Ireland, reduce costs, and learn from real case studies. Your guide to solar for schools.

Free solar panel installations offered to schools across Ireland, helping to reduce energy costs, carbon footprints, and provide an education to students about renewable energy in an effort to ...

The second phase of the Schools Photovoltaic Programme will open for applications from 11th November 2024. All schools in the second phase will be contacted by the Department and ...
