---

To help Israel's industrial and commercial energy transition, GSL Energy and Deye have jointly created a highly efficient and flexible energy storage demonstration project.

HiTHIUM will supply long-duration energy storage for Israeli projects. The agreement with El-Mor Renewable Energy aims to construct 1.5 GWh of storage by 2025. El-Mor, a major Israeli ...

El-Mor will design and build battery energy storage systems (BESS) and related infrastructures for multiple projects with a total capacity of 1.5GWh and total power of 300MW.

Explore the latest energy storage project by HiTHIUM and El-Mor, enhancing renewable energy in Israel with 1.5 GWh capacity.

HiTHIUM, a global leader in long-duration energy storage technology, has announced a strategic cooperation agreement with El-Mor Renewable Energy, one of Israel's largest EPC ...

Under the agreement, EL-Mor will design and build battery energy storage systems (BESS) and related infrastructure for multiple projects, with a total capacity of 1.5GWh and a total ...

HiTHIUM and El-Mor sign a strategic agreement for 1.5GWh of BESS projects in Israel, featuring the region's largest PV+BESS installation to support grid stability.

The Yesha project (est. 2024) is a first of its kind agro-solar platform that optimizes land use to produce high-yield agriculture alongside reliable green electricity.

"Through this strategic partnership with El-Mor, we are delivering the long-duration energy storage technology that will help stabilize Israel's grid, enhance solar integration, and empower a ...
