Grid connected and off-grid roof top solar PV systems have been installed at various places, either to export energy to grid or to reduce electrical bills in an industry, hospitals, etc.

GRID is working with the help of RES to bring KIOCH a 31.68kW grid-tied solar electric system with lithium-ion battery backup for emergency loads. This will provide significant monthly cost savings by ...

Ten RES volunteers supported the installation of a 31.68kW grid-tied solar electric system with lithium-ion battery backup for emergency loads for the KIOCH-Damak hospital. We are proud to ...

At the personal request of Prof. Dr. Bhagwan Koirala, Gham Power volunteered to design and implement the system. As a result, a 31.6 kW solar system was successfully installed, providing ...

Mustang Hospital Solar Electrification The 1.2 KW solar PV array with a 3 KVA TRACE solar power converter provides sufficient AC power for the hospital equipment,

It will be held at AEPC, Tahachal, Kathmandu, Nepal at 11:00 A.M. on 2 February 2026. All questions and their answers discussed during the Pre-Bid meeting will be recorded and provided to all bidders

Affiliated with Kathmandu University, the hospital serves around 350 beds in its premises. They had previously faced the problem of unstable electricity, resulting in a decrease in ...

As one of twelve critical health facilities selected for this initiative, we engineered and installed a custom off-grid solar system designed to meet the rigorous demands of a modern hospital.

The system is equipped with 48 solar panels and a smart energy storage solution, providing the hospital with reliable and sustainable energy.?? This project was completed with financial...

Pre-bid meeting shall be held at AEPC, Tahachal, Kathmandu, Nepal at 11:00 A.M. on 18 November 2025.
