Designed to protect your equipment from rain, dust, and extreme temperatures, our waterproof and customizable solutions ensure reliability in any environment. Learn more! IP55 Rated | 24U | AC110V or 220V 2700BTU Cabinet Air Conditioner

Who makes outdoor Telecom cabinets?

Since 1989, we've manufactured outdoor telecom cabinets in America's Heartland, providing telecommunications companies, utilities, and network operators with BABA-compliant solutions that protect critical equipment from the harshest environmental conditions.

Can telecommunications equipment be terminated outdoors?

One of the biggest challenges of terminating your telecommunications equipment outdoors is finding outdoor enclosures that will be able to properly withstand the elements. Temperature, moisture, ice, shock hazards, and UV damage are all potential dangers to consider before purchasing an outdoor enclosure or cabinet.

What is an outdoor telecom enclosure?

Our outdoor telecom enclosures support a wide range of telecommunications and infrastructure needs: Fiber Optic Networks: From compact fiber distribution units to high-capacity data center enclosures like the AP-Data with six slack frames, our cabinets manage dark-fiber volumes with organized cable management and secure slack storage.

Our cabinets are built to withstand harsh weather conditions and provide excellent protection for power management systems, telecom base stations, energy storage battery systems, and radio equipment.

Learn about their features, including weatherproofing, temperature control, and space optimization, making them ideal for outdoor installations in remote locations and urban settings.

This comprehensive guide outlines the essential factors businesses should evaluate when choosing an outdoor telecom cabinet, ensuring optimal performance and long-term cost savings.
