Is Malaysia ready for energy storage?

(Photo: iStock) Malaysia is rapidly expanding solar and other intermittent renewable generation, creating strong momentum for energy storage. The country's first four large-scale grid-connected storage projects have attracted significant interest, with more than 20 companies submitting over 30 proposals.

How many bids are there for battery storage projects in Malaysia?

KUALA LUMPUR (Aug 21): The bidding round for four large-scale, grid-connected battery storage projects in Peninsular Malaysia has attracted significant interest, with more than 20 industry players submitting over 30 bids, according to sources. The request for proposal, known as MyBeST, closed at the end of July.

Who has bid on Malaysia's first large-scale grid-connected energy storage project?
