The project, which is strategically located on the Philippines' main island of Luzon, about 100km from Manila, will combine 3.5GWp of solar PV capacity with 4.5GWh of battery energy ...

Meralco PowerGen Corp. (MGEN) and Korea Electric Power Corp. (KEPCO) are looking to expand their collaboration beyond solar energy into wind and energy storage systems to diversify ...

It's 3 PM in Metro Manila, and air conditioners across the city are working overtime. Suddenly, a blackout hits. Now imagine if we could store excess energy during low-demand hours ...

As Manila accelerates its shift toward renewable energy, the Manila Wind Power Project faces a critical challenge: how to store excess energy efficiently. Wind power, while abundant in coastal regions like ...

Manila Electric Co. (Meralco), the country's largest power distribution utility (DU), has built its first battery energy storage system (BESS) in partnership with Japan's Hitachi Ltd. as part of its ...

Summary: Discover how Manila's energy storage charging stations combine cutting-edge battery technology with renewable energy integration. Learn about their role in supporting electric vehicles ...

As a trailblazer in battery energy storage technology in the Philippines, San Miguel Global Power is able to significantly support the use of renewable energy sources in the country and help regulate ...

At the heart of this energy gold rush is the 797-megawatt Caliraya-Botocan-Kalayaan (CBK) hydropower complex in Laguna. The system, first energised in 1983, is South-east Asia's ...

Energy storage air power stations are innovative technologies that leverage compressed air to provide an alternative means of energy storage. These facilities convert surplus electricity into ...
