How many drones can counterdrone support?

Counterdrone deploys a trademark dome-shaped enclosure with support for two drones. You've got redundancy without risky battery swaps or down time. Configurable floors allow the charging and housing of multiple drone types: larger drones like the DJI Matrice series, or two DJI Mavic-sized drones.

What is a drone docking station?

They are typically designed for battery-powered multirotor and eVTOL drones, as pure fixed-wing platforms require runway space to land. Some drone docking stations also provide an enclosure that stores the drone and protects it from rain, theft and damage. These enclosures may also be used to store packages for delivery drone services.

Is omnidock mini a Mavic sized drone?

OmniDock Mini is available now! It is about half the size of OmniDock Standard and can accommodate a single Mavic sized drone. OmniDock Mini is currently integrated with Mavic 2, Mavic 3, and Anzu Raptor. Mini has all of the features and benefits of its big brother in a much smaller package.

Huijue Group's Home Energy Storage Solution integrates advanced lithium battery technology with solar systems. Ranging from 5kWh to 20kWh, it caters to households of varying sizes.
