Our capabilities range from the supply of a gas-fuelled power generation engine, through to the turnkey installation of a multi-engine power plant.

Mozambique's energy storage power station projects represent a strategic leap toward sustainable electrification. By combining renewable generation with smart storage solutions, the country is ...

Mozambique now has a new government and there is an aura of hope with the potential development of its vast natural resources and planned programs to lift its people out of hardship and poverty.

Mozambican regulator Autoridade Reguladora de Energia (Arene) has issued a request for proposals (RfP) for independent power producers (IPPs) to develop and install solar PV and battery energy ...

Independent power producer (IPP) Globeleq has brought a 19MWp solar PV, 2MW/7MWh energy storage plant in Mozambique into commercial operation.

As we approach Q2 2025, Mozambique's draft National Storage Strategy aims to triple grid-connected storage capacity while establishing local battery assembly plants.

French energy firm TotalEnergies (TTEF.PA) plans to restart its long-delayed \$20 billion Mozambique liquefied natural gas (LNG) project in the first quarter of next year, two sources told Reuters late on ...

This paper presents a comprehensive analysis of Mozambique's energy transition, focusing on integrating a hybrid solar-wind system with green hydrogen storage. It discusses ...

Recently, SCU successfully provided a 2MWh energy storage container system and a 1500kVA uninterruptible power supply (UPS) solution for a gemstone mine in Mozambique as the ...

Mozambique cave energy storage power generation

Discover how Mozambique is leveraging cutting-edge energy storage solutions to stabilize its grid and attract foreign investment. Explore market opportunities, technical innovations, and the role of ...
