Spanish multinational bank BBVA has signed a deal to establish a revenue structure for a new thermal energy storage (TES) technology demonstration project.

Malta's grid-scale, long-duration energy storage system helps governments, utilities, and grid operators transition to low-cost, carbon free renewable energy while enhancing energy security.

Working together, Bechtel and Malta intend to identify and seize opportunities to deploy long-duration energy storage plants that store electricity for days or weeks - converting intermittent ...

The government has received 16 offers for the development of Malta's first large-scale utility battery energy storage systems, Minister for the Environment, Energy and Public Cleanliness ...

Malta's utility-scale, long-duration energy storage system uses steam-based heat pump technology to deliver dispatchable, cost-effective energy.

Q: Malta's solution lies in thermo-electric energy storage. Why is this system so innovative, and what are its main keys? A: It combines well-established thermodynamic principles with modern technological ...

Malta Inc. has announced a partnership with BBVA to support its long-duration thermal energy storage tech, a technology developed by Malta Inc. The agreement establishes a revenue ...

This pioneering project, the first of its kind in Malta, will not only provide essential electricity storage but also play a crucial role in responding swiftly to balance the grid during periods ...

Malta Inc. announced the groundbreaking of the expansion of DLR's world-leading test facility for thermal energy storage in molten salts (TESIS) for the full-scale qualification of the innovative, Alfa ...
