-----

There are also a series of auctions for solar power investments to ensure more solar PV projects in the pipeline. However, despite its small land area, North Macedonia also stands out as a ...

The 2.6 MW BESS projects are just the start of battery storage in the country with YESS Power, a Turkey-based contractor, planning to commission a 60 MW BESS project in North ...

By attracting national and international capital and expanding solar capacity, the country is aiming to reduce reliance on fossil fuels and meet ambitious renewable energy targets.

There are efforts from the government and collaboration internationally to allow for a brighter future for the country of North Macedonia. Progress is happening and while there is still a lot ...

North Macedonia is a country heavily dependent on coal, and it faces severe air pollution. With the support of the European Union, this project sets an example of decarbonization and transition to ...

The Oslomej solar power plant has become a model of the green energy transition in the region.

A city where sudden power outages become as rare as unicorn sightings, and solar panels work overtime even after sunset. That's the promise of the Skopje Energy Storage Project - ...

The continued growth of solar power and the development of storage capabilities will play a decisive role in securing North Macedonia's energy independence and promoting a sustainable ...

Luxembourg-based Zen Energy Group has started the installation of a hybrid energy project in North Macedonia, combining a solar power plant and a battery energy storage system.

By adding solar power generation to the reservoir, the plant provides a reliable source of energy even during periods of low water levels, creating a powerful hybrid system. This project is part ...
