-----  
What is an outdoor telecommunication enclosure?

Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to substations. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices.

Who makes outdoor Telecom cabinets?

Since 1989, we've manufactured outdoor telecom cabinets in America's Heartland, providing telecommunications companies, utilities, and network operators with BABA-compliant solutions that protect critical equipment from the harshest environmental conditions.

What is an outdoor telecom enclosure with air conditioner?

Key Features of Outdoor Telecom Enclosures Outdoor telecom enclosure with air conditioner is designed to house a variety of telecommunication equipment with 19" or 23" racking rails,they can provide protection from vandalism,dust,rain,snow and dripping water.

Why should you protect your electrical & telecom equipment?

Outdoor environments expose electrical and telecom equipment to rain,snow,dust,extreme temperatures,and even vandalism. Without proper protection,your equipment is at risk of damage,leading to costly downtime and repairs.

Purcell Systems responds with highly configurable, thermally managed outdoor rack enclosure solutions that address all power, thermal, acoustic, cabling, and quality requirements.

Westell offers secure, weather-tight outdoor network enclosures to protect electronic equipment for outdoor telecom networks.
