What are off-grid solar kits?

Off-grid kits include solar panels, off-grid solar inverters, charge controllers, solar storage batteries, enclosures and mounting. Browse our selection of pole mounted kits, continuous power ready kits, generators, solar appliance kits, and solar ready battery systems.

What is an off-grid Solar System?

START SOLAR DESIGN Off-grid solar powered systems provide electricity to remote locations not connected to the utility grid. Off-grid kits include solar panels, off-grid solar inverters, charge controllers, solar storage batteries, enclosures and mounting.

How much power does an off-grid solar system need?

Typically, we recommend kits ranging from 60 to 720 watts for smaller homes, depending on how many devices and appliances need power. If you'd like further information in order to make the optimal decision regarding your off-grid small home solar system kit, you can contact one of our specialists who can guide you through the process.

Are small house solar kits affordable?
