-----  
What is an off-grid 30kW Solar System?

An off-grid 30kW solar system consists of solar panels, a solar inverter, and a battery among other necessary gadgets. The battery, which is sufficiently powerful to run up to 24 kW load, stores the extra power generated by the solar panels to make it useful in the future.

How much does a 30 kW solar kit cost?

Buy the lowest cost 30 kW solar kit priced from \$1.12 to \$2.10 per watt with the latest, most powerful solar panels, module optimizers, or micro-inverters. For home or business, save 26% with a solar tax credit. Click on a solar kit below to review parts list and options for battery storage, EV charging, ground mounting and installation.
