What are ABS cabinet solutions?

Constructed to provide superior protection in all environments, ABS cabinet solutions offer maximum flexibility for customizable turn-key options that future proof growing networks. Designed to save deployment cost and time, our innovative solutions include hub collapse, battery backup, composite mounting platforms and modular series cabinets.

Why do MSOs need a modular enclosure?

As MSOs move out into smaller, cabinet arrangements that support a mix of active (power, battery and nodes) and passive equipment (fiber terminations and splitters), modular enclosures allow for mix-and-match compartments to fit site requirements.

Why should you choose a modular network solution?

Designed to save deployment cost and time, our innovative solutions include hub collapse, battery backup, composite mounting platforms and modular series cabinets. Modular capability helps future proof your networks so infrastructure can easily grow over time.

Can a walk-in cabinet be built from the factory?

The cabinet lineup can be built and shipped direct from the factory in the desired configuration. Amphenol Walk-In Cabinets (WIC) are protective walk-in enclosures housing an integrated system of electronic components and equipment that can serve fiber and copper interfaces.

Choosing the right base station equipment is essential for building a strong, reliable, and future-ready telecom network. Whether you're deploying a new site or upgrading existing infrastructure, our ...

The Base Station Energy Cabinet is a fully enclosed, weather-resistant telecom energy cabinet designed to provide reliable power distribution and battery backup for outdoor communication networks.

Our cabinets are built to withstand harsh weather conditions and provide excellent protection for power management systems, telecom base stations, energy storage battery systems, and radio equipment.

We are committed to providing solutions for mobile operators, telecom integrators, and the IT industry.

Off-network supplier for base station user cabinets

KDST's product line includes outdoor telecom cabinets, Energy Cabinets, base station cooling ...

Shop for reliable base station telecom cabinets from trusted suppliers. Durable, waterproof, and customizable designs for outdoor communication systems.

Besides, we have a mass production factory of 50, 000 square meters in Jiangsu province, which is mainly for metal precise production, assembly of cabinets and optical fiber products.

As a leading manufacturer and supplier of fiber optic components, we consistently provide high-quality fiber optic components, fiber optic active connectors, optical splitters, fiber optic adapters, fiber optic ...

With integrated North American manufacturing facilities and in-house engineering expertise, we can quickly customize our cabinets and enclosures to precisely meet the needs of your specific network ...

Durable outdoor integrated telecom cabinet for base stations and data nodes. Provides reliable protection and efficient housing in harsh environments.

ABS offers a variety of cabinet solutions in multiple designs and modules to meet the needs of any installation. Focused on faster and easier cost-effective deployment, our enclosures protect critical ...
