Evolugen, a renewable energy company based in Gatineau, Que., is looking to build a facility in South March after its initial plan to build one in Fitzroy Harbour failed to get city approval.

More than 60 speakers lined up Thursday to speak to the City of Ottawa's Agricultural and Rural Affairs Committee over a proposal to build a vast electrical storage facility in West...

The company is seeking to build a Battery Energy Storage System (BESS) on a 4.5-hectare plot of rural land off Marchurst Road, about 30 kilometres west of downtown Ottawa.

Facilities that successfully demonstrate their capabilities will be contracted by mid-2024, with operations starting on or before May 1, 2028. The Ottawa BESS 2 Project, among other electricity storage sites, ...

On May 9, 2024, the IESO announced that ten proposed BESS projects were selected, totaling 1,784 megawatts (MW) of energy storage, including two to be located in rural west Ottawa.

Ottawa city councillors voted to support a controversial battery energy storage system (BESS) facility in West Carleton despite the objections of rural councillors and residents who voiced...

The Project represents a cost-effective solution to add capacity, enhance flexible grid operations, and save greenhouse gas (GHG) emissions in Ontario by reducing the need for carbon-intensive power ...

Gatineau-based energy company Evolgen is looking to build a battery energy storage system (BESS) in the community of South March in a project the company says will help address a ...

The facility, called the Skyview 2 Battery Energy Storage System, will be built in the community of Edwardsburgh/Cardinal, approximately 80 kilometres south of downtown Ottawa.

Ottawa energy storage power station project

A massive energy storage facility to be located in rural west-end Ottawa was recently approved by city council, but remains a contentious project among locals in the area.
